Now, everyone can save lives

**AUTOMATED EXTERNAL DEFIBRILLATOR**

# YOU TOO...

# ...BECOME A HERO

## We all have the power to save someone's life

Most people don't feel about intervene in a heart attack. The Skity defibrillator helps you overcome this hurdle and save lives.

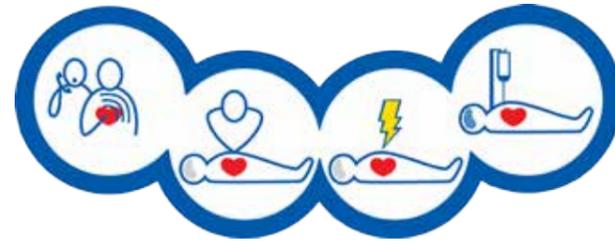

Throw off your doubts, Skity guides you with precise spoken and visual instructions through all the steps.

## Heart attacks are more deadly than tobacco addiction

According to the World Health Organisation, every year more than 7 million people are affected by heart attacks around the world, or one person **every 5 seconds**.

Heart attacks are the largest single cause of death around the world today.

## The survival chain

## 1 CALL EMERGENCY SERVICES

## 2 CARDIAC MASSAGE

## 3 CARDIAC DEFIBRILLATION

## 4 TREATMENT OF THE VICTIM

## Skity for everyone

The Skity defibrillator is available in two versions, entirely automatic or semi-automatic mode. In both modes the analysis is done automatically without you having to do anything.

## Skity sets the pace

Like a conductor, the Skity defibrillator gives you the tempo, using a built-in metronome to show you the right rhythm for cardiac massage.

## Offer the best chance of survival

Using remarkable technology, the machine provides a solution for everyone, child or adult. After a detailed analysis, the energy from Skity adjusts automatically to each body morphology.

Skity uses all its power to help the person in cardiac arrest.

Push yourself and save lives with Skity.
